

Dear University Leavers,

Perhaps you have seen the Forbes headlines: “The Hottest Jobs in IT: Training Tomorrow’s Data Scientist”, Jun 26, 2014, and “Why Data Scientist Is the Best Job to Pursue in 2016”, Jan 20, 2016? Data Scientists are indeed in great demand by the industries all over the world.

The opportunity to prepare for this is here for you to grab.

Data star is a programme driven by Asean Data Analytics Exchange (ADAX) and MDEC to fast track the developments of Data Professionals to meet the needs of industry. It is a 6-month sponsored Data Science finishing school programme which includes training and mentorship by industry experienced Data Scientists and placement at Industry partners. You are not bonded after the programme but there is the possibility of a job offer after the training. Monthly allowance during the training is RM3000.

We welcome those with a background in finance, actuarial science, mathematics/statistics, computer science and engineering to submit your resume to datastar@adax.asia by 24th July 2017.

BE JOB READY. BE IN DEMAND.

LAUNCH YOUR DATA SCIENCE CAREER WITH DATA STAR
